An Automated Checkout Device for Cash Payments

## Sesami RC5000

The Sesami RC5000 provides retailers with a reliable, secure, and adaptable solution for automating cash payments across multiple store touchpoints. Its compact, modular design allows it to fit seamlessly under the counter or integrate into self-check-out, cashier-assisted check-out, or as a full cashier till replacement. Engineered for flexibility and efficiency, the RC5000 supports evolving store needs while enhancing the experience for both employees and customers.

### Closed Cash Management

With the RC5000, cash deposits are securely counted and stored, preventing access to cash at any time, thus enabling an effective closed cash management process. Its robust, certified vault enclosure ensures maximum protection.

### Multiple Deployment Scenarios

Whether used in self-checkout, cashier-assisted lanes, or as a full cashier till replacement, the RC5000 adapts to your store's unique setup—supporting both attended and unattended payments.

### System Reporting and Monitoring

Powered by Sesami Enterprise Software (SES), the RC5000 gives you full intelligent control over cash operations across all your store locations. With real-time data and analytics from SES, you can make informed decisions that drive efficiency.

### Streamlined System Maintenance

The RC5000 seamlessly integrates into your existing systems, ensuring connectivity and future-ready compatibility.

#### Benefits

Closed and controlled Cash Handling at checkout

Extensive in-store security in front and back office

Simple staff maintenance

Designed for self-service or cashier operation

## Sesami Enterprise Software Platform (SES)

**Sesami Enterprise Software Platform (SES) for deposit devices with endless capabilities to embrace the future.**

### **Hyperconnectivity**

SES connects with several cloud environments, including third-party systems, in real time with encrypted communication Protocol and open VPN by default. Connected, secure and efficient.

### **Omnipresent Access**

Manage upgrades and users for any component of the device without physically needing to be on site, reducing unnecessary visits. Increase productivity by accessing real-time data, and predictive maintenance and performance analysis, giving you flexible and intelligent control of your cash deposit devices.

### **Endless Adaptability**

Designed to be flexible and modular, SES adapts rapidly and efficiently with robust, long-term reliability, to your operations and individual needs.

Designed on a building block architecture with multiple configurations proven in the field.

### **Flexible Workflow**

Allows for multiple business models and licensing options. Live custom fields and configurable workflows are just some of the features of SES, which adapt to your business goals.

### **Advanced Reporting**

Track everything with our live tailored reports, including advanced reconciliation reports for deposit collection and end of day and advanced cash monitoring. Designed to give you total control of your business.

Choose from the full range of SES Suite modules, including Balance for your finances and Enhance for your service operations.
